

I DESIGN AND CREATE WEBSITES

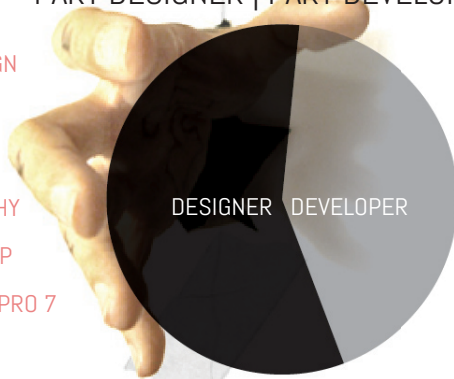

HELLO

My name is Markus, I am a web designer from Southern California. I have over 10 years experience in freelance, corporate and non-corporate team environments.

I have extensive knowledge in visual communication, web programming, print and project management. I have also taken some college courses and continue to seek out creative and new ways to stay organized and current.

PROFESSIONAL EXPERIENCE

PROJECT MANAGER / WEB DEVELOPER

*Pixel Motion
Aug 2013- Present*

Responsible for overseeing and deploying multiple build projects. I manage the Build team and am the direct client contact during and after the build phase and during the transition into maintenance.

I also manage the Maintenance team by delegating maintenance and support tasks and by providing internal support to our resources to ensure a timely delivery.

My goal is to ensure clear communication between our clients and teams to meet set goals and deadlines.

WEB DEVELOPER

*Pixel Motion
July 2012- Aug 2013 Present*

Build development and Maintenance I also oversee the status and implementation of client data feeds into our system working closely with our Lead Programmer and Data service providers to ensure the most accurate and up to date information is online at all times.

I assist our Senior Art Director in designing and implementing custom client based ad banners and other creative for our sites.

PRE PRESS / GRAPHICS

*Reed Printing
Nov 2010- July 2012*

Responsible for all pre-press operations. Import, pre-flight and export. Duties include proofing and correcting any necessary pre-press instances. I work directly with the designer ensuring close communication to gain maximum quality and efficiency.

I designed and coded the Reed company website and was responsible for all updates and changes as well as optimizing and developing concepts to improve quality assurance.
